

The Life Awareness Program

The Life Awareness Program is designed for use in men and women prison facilities. Each session is scheduled for a total of 90 minutes of teaching, discussion, and prayer.

The format is for small groups, 12 maximum, to form a share and prayer circle. The material is written in a dialogue form and during each session participants are selected to read the part of a spiritually awakened Friend In Deed (FID) or a spiritual slumbering Friend In Need (FIN). The remainder of the small group listens to the discussion as it unfolds. The dynamics of the session begin when the individuals in the group begin to react to the dialogue. The role of the facilitator is to observe individual reactions occurring and to stop the dialogue and encourage discussion at the appropriate times.

Scripture is introduced at appropriate times to empower the points made in the text. The scriptures should be read in at least two translations to help understanding and encourage independent Bible study. Often the scriptures will open group hearts to what the text is discussing and generate further discussion.
